

Tejas Prajapati

Software Developer

 9653260119 —  Email —  Github —  Linkedin

Summary

Aspiring Full Stack Developer with hands-on experience in building responsive web applications using React.js, Node.js, Express.js, and MongoDB. Strong problem-solving abilities and a passion for developing high-quality software solutions. Eager to contribute to dynamic development teams and gain industry experience.

Skills

Programming Languages: JavaScript, Java

Web Technologies: React.js, Node.js, Express.js

Databases: Firebase Realtime Database, MongoDB

Tools & Technologies: Git, GitHub, VS Code, Postman, Socket.IO, Figma

Other Skills: Authentication & Authorization (JWT), RESTful APIs.

Experience

Capstone Project

Tools Used: JavaScript, React.js, Node.js, MongoDB

- Developed and maintained web applications using JavaScript, React.js, Node.js, and MongoDB.
- Built reusable components and implemented responsive UI/UX with a focus on performance.
- Integrated RESTful APIs and worked with databases to manage and fetch data.
- Collaborated with the development team to fix bugs, optimize performance, and deliver features on time.

Projects

Portfolio Website

 GitHub

- Developed a responsive portfolio website in React.js to showcase projects, technical expertise, and career achievements.
- Implemented reusable components and optimized performance, accessibility, and user experience across multiple devices.

Multiplayer 8 pool game

 GitHub

- Engineered a real-time multiplayer 8 Ball Pool game with secure authentication, matchmaking, scalable backend APIs, and live gameplay synchronization using the MERN stack and Socket.IO.
- Improved gameplay experience through responsive UI design, low-latency communication, MongoDB integration, and performance optimization across devices.

AI Discord bot

 GitHub

- Engineered an AI-powered Discord bot with intelligent chat, moderation commands, and automated server management using Python, Discord.py, and Gemini API.
- Integrated AI APIs, optimized command handling and response time, and implemented persistent data storage for an efficient and interactive user experience.

I hereby declare that all the information furnished by me is true to the best of my knowledge and belief.

Certifications

- Certified in **AI-Powered Graphic Design: Mastering Figma & Emerging Tech** (Udemy), with practical experience in Figma, AI-assisted design, prototyping, and modern UI/UX workflows.
- Earned the **Microsoft Azure Fundamentals: Azure RBAC & Azure Policy** certification from Infosys Springboard, strengthening skills in Azure cloud services, access control, policy management, and cloud governance.
- Participated in several competitive hackathons, applying full-stack development, problem-solving, and teamwork skills to build innovative technology solutions under strict deadlines.

Education

B.Tech. Information Technology

Bharati Vidhyapeeth (Deemed to be University), Navi Mumbai

Present

CGPA: 9.0 / 10
